Dharwar

19-5-90

Dear Sir

Owing to the sad calamity which lately befell me, I was not able to write to you earlier about the progress made in the erection of the Dharmas.

I inspected the Dharmas last Sunday and am now able to report as follows:-

Work. Practically completed. The wood used is of a fair quality, and the work is on the whole satisfactory. It may be here observed that portions of the woodwork prepared by the contractor in the first instance had to be rejected and was replaced by wood of a better description

The attention of the contractor Wood work
(continued)
was invited to the omission
of earned work at the ends
of underframes, and he
was requested to supply
the omission

With the exception Iron work
of a few odds and ends,
this work is also finished
and the work turned out
is on the whole satisfactory.
The necessity of filing certain
portions of Ironwork
which presented rather
a rough appearance was
impressed upon the con-
tractor, who promised to
give the matter his careful
attention.

This work has just Painting
been commenced, and the

contractor is using his best endeavours to complete the same before the rains set in. The desirability of picking the carriages with gold paint instead of with red or chocolate paint was considered, but as this involved an extra expenditure of about 7 Rupees per Dhanney, no definite orders were given to the contractor pending your approval to the additional outlay. Gold picking adds considerably to the appearance of the carriages and the improvement is well worth the extra cost.

The tops are all but finished, and only want painting to complete them.

The American cloth

to be used for inside lining was selected from among the samples produced by the contractor, but the light green broadcloth being of inferior quality was rejected.

The ~~woons~~ got out woons.
from Bombay were - -
spected. They are of ordinary description and are nearly worth the price specified in the agreement.

The contractor re: Step at the back
presented that there would be some difficulty in fixing folding steps at the back of the hammocks. Verbal instructions were given as to how the step should be prepared, and the contractor was asked

to make a sample step accordingly and to give intimation as soon as ready.

It will be seen from the above that the Dhumneys are approaching completion they will in all probability be ready for delivery on or about the 15th of next month. I therefore request your early instructions on the following points:

- (1) Whether the ~~work~~ ^{work} mentioned in ~~the~~ ^{the} preceding above referred to may be carried out at an extra cost not exceeding Rs. 7 per Dhumney.
- (2) The place or places to which the Dhumneys should be sent and to whose address.
- (3) Whether they should

be sent by road or by rail.

(4) If by rail, whether carriage trucks or goods vehicles should be used.

with regard to the last enquiry I may mention that the ordinary rate for carriages loaded in carriage Trucks and carried by passenger trains is annas 3 per mile, but the Railway Company have ^{not} ^{yet} ^{fully} ^{applied} ^{for} the sanction of ^(cannot be raised out.) to carry the same in goods Vehicles by goods trains at owners risk at the reduced rate of annas 2 per mile. Sanction is being daily expected and might ^{be} in all probability be received before the Shimmings are ready for despatch. The difference in rates

considerable and is deserving
of consideration. Of course
the reduced rate is at
"Owner's Risk" but the
only risk of which we
need have any apprehension
is that of fire, and fire in
the m. are not of constant
occurrence. If you approve
of the savings being sent
by Express / or the
arrangement that sanction
to the reduced rate will have
been received by the 15th of
next month) I would suggest
the desirability of sending
an order to the bank to
pay at each important station
and see that nothing has
been referred to the savings.
I would also suggest that
arrangements be made to
transmit the balance payable

to the contractor for the 6
carriages, so as to reach my
hands not later than the
15th. Proximo. The amount
required is approximately
Rs 1175, made up as follows.

6 carriages at Rs 265 each - 1590----

Extra cost of painting
with gold paint (if
approved) 6 x 7 -----

The Dummery I have purchased from Mr. H. H. H. Chattran some time ago. He told me to pay the cost with Govt. As I did not get bill for it so long I asked Mr. H. H. H. Rao what I should pay. I should like to keep it and pay for it if it can be left with me is as good as now I have

scarcely used it except once
when I took Mr Tata to the
Cannery Falls. I hope the
Undersecretary will let me
know the cost soon so that
I may pay it.
